

# PERFECTLY PRACTICAL

Classic basics for inside and out

## Prepare For Great Results

For any painting project, preparation is a key factor in achieving quality results! Various surface preparation methods are used depending on the requirements of your selected paint and the condition of the surface you paint. The surface could be steel, galvanized steel, aluminium, concrete or wood and each requires different surface preparation and treatment.

### GENERAL SURFACE PREPARATION

All surfaces must be sound, dry, clean and free of oil, grease, dirt, mildew, form release agents, curing compounds and loose and flaking paint. Follow the directions provided on the paint label and use our paint project checklist.

BRING YOUR INSPIRATION TO LIFE WITH B-H

## BH PERMA - THE SMART CHOICE FOR DECORATING YOUR HOME, BUSINESS OR SURROUNDINGS

with Improved Quality, Coverage & Durability available in Thousands of Colours.

### Flat Emulsion Paint

- Low odour interior/exterior, fade and fungus-resistant matte emulsion
- Now whiter and easier to clean
- Bureau of Standards Jamaica National Certification

FLAT

Beautiful matte coating, ideal for low-traffic interior/exterior areas. Best for hiding imperfections.

### Satin Emulsion Paint

- Low odour interior/exterior, fade and fungus-resistant low sheen emulsion
- Now whiter and easier to clean
- Bureau of Standards Jamaica National Certification

SATIN

Smooth finish with a subtle sheen. Washable and scrubbable. Ideal for bedrooms, bathrooms, hallways, and high-traffic areas.

### Gloss Oil Paint

- Interior/exterior tough high sheen finish with mildew and fungus resistance designed for the tropics
- For use to beautify and protect wooden & metal surfaces
- Bureau of Standards Jamaica National Certification

GLOSS

Gloss is the highest sheen of paint available. It is a good choice for areas that sticky fingers touch — cabinets, trim, doors, and kitchens.

All sheens shown in Florida Waters 0599. Colours may vary based on light source and paint sheen.
