HWH DRILL SCREWS

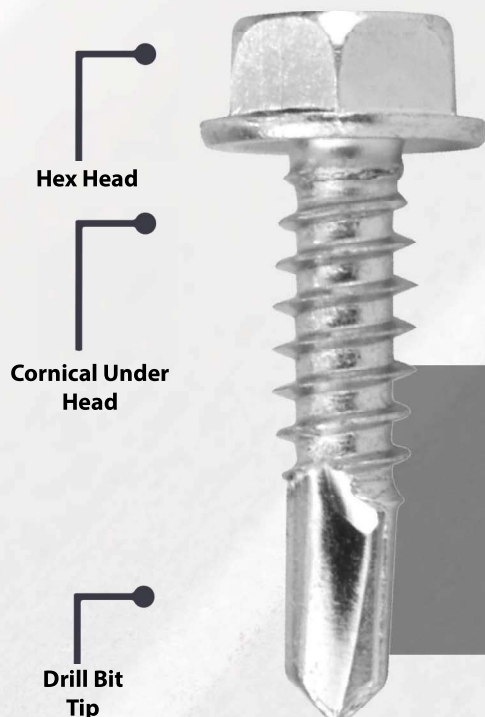

This self-drilling screw is used in wood, fiberglass, and metal, and it possess a drill point enabling it to drill its own hole in thin gauge steel. The sharp threads create their own mating thread when drilled into the material. No pre-drilled pilot holes are necessary.

MULTI-MATERIAL FUNCTION:

Ideal for use in wood, fiberglass, or metal

CORROSION-RESISTANT FINISH:

Zinc plating offers moderate protection against rust and corrosion

- ✓ *Self drilling*
- ✓ *No pre-drilling required*
- ✓ *Multi-material function*
- ✓ *Corrosion resistance*
